APIs.

Android Developer

VLogic Info PVT.LTD - Ahmedabad
05/2019 - 08/2019

- Served as a vendor for SAR Group, Gurugram.
- Implemented changes and improvements in two of SAR Group's applications.
- Added support and functionality for VLogic's School Management app.

Jr. Android Developer

Murait Technology - Surat
04/2018 - 04/2019

- I began my career with training as an Android developer, establishing a solid foundation and gaining valuable experience.
- During this period, I developed 3-4 apps, including GujjuRocks and a QR & Barcode Scanner/Reader.

Projects

iPlusLiving

12 Months

- Launched iPlusLiving, a robust mobile solution for property management, enabling real-time updates and service requests for residents; the platform is now utilized by over 120 properties across the region.
- Achieved over 50,000 downloads, significantly enhancing daily convenience and operational efficiency, driving broad user adoption and increasing overall user satisfaction.

GujjuRocks

2 Months

- Led the development of a leading Gujarati news app, delivering global news coverage exclusively in "Shuddh Gujarati Language."

Partnered with "GujjuRocks," India's top social media platform, to blend modern Gujarati culture into the app.

- Garnered over 100,000 downloads and a 4.1 rating, reflecting high user satisfaction and widespread adoption.

GoFastLink

6 Months

- Directed the creation of GoFastLinks, a centralized platform for organizing and managing links across devices.
- Enabled users to save, categorize, and easily access links, eliminating the need for multiple browser bookmarks.
- Streamlined link management, reducing user overwhelm and enhancing convenience.

FasterWins

3 Months

- Developed FasterWins, a robust tool tailored for Livfast Partners (Dealers), enhancing their ability to access product schemes and rewards swiftly.
- Optimized organizational connections and provided comprehensive support throughout the sales journey.
- Achieved over 10,000 downloads and a 4.1 rating, establishing it as a trusted solution for optimizing sales operations.
